

Shahid Khan

UI/UX Designer & Data Analyst (Fresher)

+91-62673000764 shiekhshahidkhan@gmail.com

SUMMARY

Detail-oriented Computer Science student specializing in UI/UX Design and Data Analysis, with hands-on experience through internships and project work. Skilled in creating intuitive user interfaces using Figma, Adobe XD, and Canva, and analyzing data using Python, SQL, Power BI, Pandas, and Matplotlib. Proven ability to translate user needs into functional designs and derive insights from complex datasets. Eager to contribute to innovative tech teams in design or data roles.

EXPERIENCE

UI/UX & Data Analytics Intern

Bharat Intern

07/2024 - 08/2024

Internship specializing in UI/UX & Data Analytics with a focus on design and data tasks

- Designed interfaces for internal Android projects using Figma
- Performed basic data cleaning and created visual dashboards from user data

Python & ML Intern (Data-Focused)

Acmegrade pvt ltd

02/2024 - 04/2024

Internship focused on Python and Machine Learning in data analysis projects

- Worked on Python-based data workflows using Pandas and Matplotlib
- Gained hands-on experience in data visualization and exploratory analysis

EDUCATION

B.Tech Computer Science – AIML

Jawaharlal Institute of Technology (RGPV Affiliated)

2022 - 2026

TRAINING & COURSES

B.Tech in Computer Science

UI/UX Design, Data Structures,
Python for Data Analysis, DBMS,
Data Visualization

CERTIFICATION

Google Data Analysis Certificate

Google UX Design Certificate

OCI Data Science Certificate

KEY ACHIEVEMENTS

- UI Prototypes**
Designed 6+ UI prototypes including a prayer app, task manager, and resume analyzer, Customer Segment Analysis Dashboard
- Data Analysis Projects**
Created end-to-end data analysis projects with insights and visual dashboards
- Internship Achievements**
Completed two internships combining both design and data responsibilities

SKILLS

Adobe XD	Canva	Data Structures
EDA	Figma	GitHub
Google Sheet	Kanban	Matplotlib
Numpy	Pandas	Python
Seaborn	SQL	Microsoft Power BI
WireFraming		

PROJECTS

Online Sales Dashboard

A project focusing on data visualization and reporting

- Built a dynamic Power BI dashboard to visualize product performance, revenue trends, and customer behaviour
- Automated monthly reporting using Excel & VBA for quick insights

Task Manager UI

A UI prototype project aimed at improving task management

- Designed a sleek Kanban-style task board interface for productivity workflows
- Focused on intuitive card movements, hierarchy, and smooth user interaction

Resume Analyzer UI + Data Workflow

An interface project applying AI for resume analysis

- Created a web interface for uploading resumes and viewing AI-generated analysis
- Used Facebook's BART model to summarize resumes and match job roles

SalaahStrike - Prayer Tracking App UI

A UI design project aimed at providing a prayer tracking solution

- Designed a spiritual and clean UI in Figma using soft tones and minimalist layout
- Home screen features circular profile display and four interactive icons
